

The chart displays the United States Industrial Production Index from January 2010 to January 2015. The historical data (labeled 'his') shows a steady increase from approximately 98 in early 2010 to about 112 in mid-2012. From mid-2012, a forecast is provided, showing a projected decline. The forecast is presented with a central line and shaded regions representing different confidence levels: 10%, 20%, 30%, 40%, 50%, and 60%. The 10% confidence interval (darkest blue) is the narrowest, while the 60% confidence interval (lightest blue) is the widest. Red circles indicate the median forecast for each year from 2012 to 2015.

Date	Historical Index (his)	Median Forecast
2010 01	98.0	-
2011 01	105.5	-
2012 01	111.0	-
2012 07	112.0	-
2013 01	-	109.5
2014 01	-	105.5
2015 01	-	102.5
